

THE HOT ONE—I don't see how you keep so cool and clean and comfortable this blistering weather. 546
THE COOL ONE—Simplest thing in the world. I keep cool and clean inside, and that makes me feel cool and clean outside. I take a CASCARET Candy Cathartic every night before going to bed. It cleans and purifies the system, stops hot fermentation in the stomach and bowels, and makes excessive perspiration impossible. You know they work while you sleep, make you feel fine all day.

LAS VEGAS FIRE.

Pope's Fruit Store Destroyed—A Political Pow Wow—Coming Marriage of Prof. McNary.

YOUNG MAN KILLED BY LIGHTNING.

Special Correspondence.

Las Vegas, N. M., Aug. 18.—The fire alarm yesterday afternoon at 4:30 o'clock brought the company and a large crowd to the fruit and confectionery store of R. L. Pope, on Sixth street, next to Mrs. Waring's. The rear end of the shop, which was closed off from the store part, and which was used as living quarters by Mr. and Mrs. Pope, was found to be ablaze. The company lost no time in getting a stream of water playing on the fire, and the chemical was also turned on, and the fire soon extinguished, but not until the entire rear end was completely gutted and charred. The store was not burned, but damaged by water and the crowd to some extent. A trunk and some of the bedding was all there was saved from the living quarters. The fire caught from the flue, which ignited the ceiling, made of canvas stretched over the rafters and covered with papers. Mr. and Mrs. Pope were in the front end and the fire was accidentally discovered by Mr. Pope going to the rear for some fruit. There was insurance of \$100 on furniture and fixtures, which will hardly cover the loss.

Some went to church, some burned the streets, and some had a political meeting at the home of Adelaido Gonzales back of the west side Catholic church, last night. It was a muttering, disgruntled combination of natives and Judge Long and George P. Money trying to talk politics and get a platform on which to resurrect the old Unionist party. There are said to have been over 100 present, and they powdered and motioned and accomplished nothing by midnight, when they gave it up and went to bed like respectable citizens should do on Sunday night. The meeting was composed mostly of democrats, and naturally there was not enough harmony in the whole bunch to even get a committee appointed.

The game was the best played in the county this year. Several fine plays were made on both sides, one of them being a home run by Willey, of Wingate. Over a Dead Horse.

A "horse" lawsuit took place this morning before Justice Crawford. A short time ago Ortiz & Co. were called upon to put shoes on a real genuine bronco belonging to Sol Block. In attempting to shoe the animal the men had to use force and threw the horse to the floor. He was unruly and very particular, and kicked at everything within his reach. Finally, the men conquered the horse, but not until he had burst a blood vessel, when death occurred a few seconds later. The firm offered to pay Mr. Block what they considered a fair price for the horse, but he refused, setting a big price on the horse. The case was decided and Mr. Block no doubt now wishes that he had accepted the price tendered him by Ortiz & Co.

Beans Grow Long in Kansas. "Jack's" gigantic beanstalk would have attracted comparatively little attention in Jasper county, where the soil is so fertile that almost any old growth in vegetation may be expected.

Southerners Seldom Have Gout. A writer says that typical southerners very rarely have gout in their lower extremities, and he explains his statement as follows: "The moment one sits down he looks about for some object upon which to elevate his feet, usually resting them on a chair or window sill if indoors or the balustrade if on the porch or piazza. Now, the location of gout being simply a question of specific gravity, it does not descend to the feet because of this habitual elevation. If it should get there it would be obliged to climb. The smallness of the southern foot is accounted for in the same way—that is, of course, the southern man's foot. The women never elevate. Englishmen have whopping big feet, which they keep plastered right down on the ground or floor at all times, as if afraid of letting something get away from them. They have gout in their feet in consequence."—N. Y. Press.

WANTED AS WIVES.

American Hearts Fired by Tale of Beautiful Hawaiian Heiresses.

Some of the Communications Received by Honolulu Representative at the Pan-American Exposition.

Miss Rose C. Davison has returned from Buffalo where she represented Hawaii as commissioner at the Pan-American fair. While she was in Chicago, a newspaper made her say that the Hawaiian girls were all beautiful and heiresses and just waiting for American youths to ask them to marry. Miss Davison denied the interview, says a Honolulu report in the New York Sun, but it brought her a flood of letters from American youths. Here are some samples of her correspondence:

"As I see by the papers that you are representing the Hawaiian island people at the Pan-American exposition at Buffalo and seem to put much stress upon the golden opportunities which are afforded to Americans to gain fortune besides a beautiful woman, I take upon myself the liberty of addressing you a short epistle concerning the climatic conditions of the islands, and also the advantages offered one without means. If I am not intruding upon your good nature too much I would be pleased to have a response from you upon this subject and also the cost of transportation. If I can secure the proper information which would warrant one in going there, I would have no hesitancy in doing so. Are the people of the islands conversant in the English language and do they mix readily with the American people?"

"As you will see from the letterhead, I am a dentist and would like, if possible, to locate in a climate milder than this. I would be greatly obliged to you if you would tell me whether or not you consider it probable that I would find a favorable opening for one of my profession in the Hawaiian islands. I am a white man, 30 years of age, graduate of a first-class dental college (the Chicago Dental college), and have been in practice four years."

"I am a friend of mine would like to become acquainted with some of those girls. We are both sober and industrious men and would thank you ever so much if you would do us the favor of sending us the names and addresses of two pretty Hawaiian girls, who want good, handsome white husbands, as we wish to correspond with them."

"I am led to believe that you would marry if you found the right man. If this be the case, I beg to open a correspondence to acquaint us with each other, in order to speed matrimony. All that I am looking for, is a loving wife."

"Be good enough to let me know how much truth there may be in the statements, as my experience, covering the last six years, has convinced me that a young man of my age (26) might do considerable worse than to select a wife outside of a country which produces young ladies in the middle condition of life that leave considerable to be desired in the way of intelligence and morality."

"I see you speak of your nice and lovely Hawaiian girls, who want white husbands. You say the girls are very wealthy. There are nice men, honest and honorable, who would trade color for wealth in this country; but very few of them have money to take them to Hawaii. Could they only meet both their conditions might be bettered."

"I am only 34, and lately lost what little money I had in an investment with other gentlemen which proved a failure, and would like a little information on the subject on which the enclosed article treats. And if you would do me the honor to enlighten me, I will be grateful for the service."

"I am 29 years old, have had good business training, am energetic and steady and can give first-class references, covering my entire life from school days to the present. I have never had time to consider matrimony, but would not be averse to it under certain conditions, but would like the opportunity of growing up with your country. I am five feet seven inches in height, weigh 150 pounds, and am well built and in perfect health. Now, if you can put me in a way to open a correspondence with the proper parties, I will feel greatly obliged."
